

ADAM s ESD

0RV20076

DESCRIPTION

Adam is the style of **super light safety shoes** for work with two-colour breathable **grey nylon upper** and black **abrasion-resistant film** to protect the **toe**. The great novelty of these **safety shoes** is the **weight** which has been **significantly reduced** thanks to the AirToe Aluminium toecap, as well as the use of innovative tread materials and **puncture-resistant sole**. **Non-slip safety shoes** with new generation PU compound sole, **ultralight and oil-resistant, abrasion-resistant and anti-static protection**. **Ultra-light puncture-resistant textile** insole to protect the sole of the foot. **Lightweight safety shoes for women and men** ideal for **carpenters, electricians and craftsmen** in general, as well as the **transport & logistics industry and warehouse workers**. **Comfortable and light safety shoes** that ensure **high performance and prolonged comfort** thanks to the **antibacterial, breathable and anatomical U-Power Original insole**. The **Wingtex® air tunnel lining** completes the **work shoes**, ensuring **optimal foot breathability**.

UPPER

Breathable nylon and abrasion-resistant scuff cap to protect the toe

LINING

Wingtex® with breathable air tunnel

TOECAP

AirToe Aluminium

ANTIPERFORATION

Save & Flex Air

MIDSOLE

U-Power Original

SOLE/TREAD

Abrasion-resistant, oil-resistant, no-slip and anti-static in a new generation PU compound

ANATOMICAL INSOLE

Natural Confort 11 Mondopoint

SAVE & FLEX AIR

Save & Flex Air anti-perforation insert. Ultra-lightweight (extralight) protective insert designed to effectively protect the foot from nails and sharp objects without adding extra weight to the footwear. It provides high safety standards, flexibility, and full-foot plantar coverage, enhancing dynamic comfort during movement.

AIRTOE ALUMINIUM TOE CAP

Made from aluminium to combine lightness with protection, ensuring thermal and dynamic comfort for the foot. Weighing approximately 54 grams, it is designed to maintain high safety standards without adding weight to the footwear.

ESD (ELECTROSTATIC DISCHARGE)

Technology designed to continuously dissipate electrostatic charges accumulated by the human body to the ground. Certified footwear complies with the requirements of the CEI EN 61340 standards for the protection of electronic components, making it suitable for use in EPA (Electrostatic Protected Area) environments during both production and handling of sensitive devices.

U-POWER ORIGINAL

Anatomical footbed with arch support structure made from a soft dynamic BASF compound. It features self-moulding properties designed to evenly distribute body weight pressure across the sole of the foot, reducing pressure points and optimizing dynamic comfort.

PROTECTION CLASS

S1PS FO SR

EU NORM

EN ISO 20345:2022
