

Model: ADRIAN s ESD

Protection Class: S3S CI FO SR

Article: LE20034

DESCRIPTION

Eco-sustainable work shoes in standard protection S3S CI FO SR with New Safety Dry upper in water-repellent and breathable material with a high percentage of recycled material. Safety shoes with specific protection to isolate the foot from the cold in the winter. The Wind 3D lining ensures maximum breathability, thanks to the microcells that absorb and disperse moisture. The comfort of the fit is increased by the LUPOS maxi soft sock liner in PU by BASF. These S3S safety shoes ensure maximum protection and safety thanks to the CompoToe Composite toe cap in composite material and the GREEN SAFE System anti-perforation system. The sole of these low-cut work shoes is in 100% renewable PU by BASF and is anti-static, anti-abrasion, anti-slip, and anti-oil, ensuring maximum stability and grip to the terrain or surface. Anti-slip safety shoes ideal for automotive, assembly line, industry and logistics.

UPPER

New Safety Dry - water repellent, breathable with a high percentage of recycled material
