AERATOR s ESD

0RI20056

DESCRIPTION

Summer safety shoes with upper **in** soft **perforated suede** and mesh inserts and Wingtex® inner **lining** with **air channels** that ensures **high breathability** and **comfort**. The **WOW2 insole**, composed of a **self-modelling** arched insole structure and an **anti-fatigue insert**, ensures **long-lasting well-being** and proper cushioning and distribution of body weight. **Aerator** is a **low-cut work shoe style**. Safety is guaranteed by the **AirToe Composite toe cap** and by the totally “**Metal Free**” **anti-perforation system** which protect the front and 100% of the sole of the foot. **Sports safety shoes** with **anti-slip**, **oil-resistant**, **abrasion-resistant** and **anti-static** PU/PU sole suitable for both men and women working in the following fields: **construction sites**, **transport** and **logistics**, **gardeners** and **farmers**, **mechanics** and **tyre repairers**, **craftsmen**, **carpenters**, **electricians**, **plumbers**, **painters**, **gas station operators**, **process workers**.

PROTECTION CLASS

S1PS FO SR

EU NORM

EN ISO 20345:2022 SB S1 PS FO SR

SIZES

35-47 (UK: 2-12)

UPPER

Soft perforated suede, breathable, with mesh inserts

LINING

Wingtex® breathable air tunnel

TOECAP

AirToe Composite

ANTIPERFORATION

Save & Flex® PLUS

MIDSOLE

WOW2 anti-fatigue

SOLE/TREAD

Abrasion resistant, oil resistant, anti-slip, anti-static PU/PU

ANATOMICAL INSOLE

Natural Confort 11 Mondopoint

AIRTOE COMPOSITE TOECAP

A versatile solution made from a completely metal-free composite material. Weighing approximately 50 grams, it offers excellent thermal insulation and a lightweight design suitable for prolonged use in a variety of working environments.

SAVE & FLEX® PLUS

Save & Flex® PLUS anti-perforation insert. Textile, metal-free protective insert designed to provide superior lightness and flexibility compared to traditional steel plates. Sewn directly onto the upper, it ensures full-foot plantar protection. It offers sole penetration resistance up to 1100 N in compliance with current safety standards.

ESD (ELECTROSTATIC DISCHARGE)

Technology designed to continuously dissipate electrostatic charges accumulated by the human body to the ground. Certified footwear complies with the requirements of the CEI EN 61340 standards for the protection of electronic components, making it suitable for use in EPA (Electrostatic Protected Area) environments during both production and handling of sensitive devices.

WOW 2

Anatomical footbed composed of two technical elements: an arch support structure made from a dynamic BASF compound with self-moulding properties, designed to evenly distribute body weight, and an anti-fatigue insert made from a special BASF compound. This combination reduces bodily stress caused by prolonged standing, helping to minimize daily fatigue throughout the working day.
