DESCRIPTION

High-top, **comfortable safety shoes** with **water-repellent natural tumbled nubuck leather upper**. **Safety shoes** highly **breathable** thanks to the **Wingtex® air tunnel lining**, which ensures **long-lasting comfort** throughout the day. **Anti-static safety shoes** with **ESD** certification, with **non-slip PU/PU Light Grip sole**. The **U-Power Original anatomic footbed** with **self-modelling properties**, distributes the body weight evenly over the entire sole of the foot, guaranteeing comfort and a sensation of well-being. The **Aluminium AirToe safety toe cap** guarantees **protection** and safety **of the lower part of the foot**, while the **Save&Flex Plus anti-puncture system**, entirely "**Metal Free**" is sewn directly onto the upper and provides 100% protection of the sole of the foot. **Non-slip work shoes** ideal **for assembly lines**, **warehouse workers**, **bricklayers**, **joiners**, **plumbers**, **transport** and **logistics**, **mechanics**, **tyre specialists**, **gardeners** and **farm workers**.

PROTECTION CLASS

S3S CI FO SR

EU NORM

EN ISO 20345:2022 S3S CI FO SR

SIZES

35-48 (UK: 2-13)

UPPER

Water-repellent, natural nubuck tumbled leather

LINING

Wingtex® with breathable air tunnel

TOECAP

AirToe Aluminium

ANTIPERFORATION

Save & Flex® PLUS® , pierce resistant "non metal"

MIDSOLE

U-Power original

SOLE/TREAD

PU/PU LIGHT GRIP

ANATOMICAL INSOLE

Natural Confort 11 Mondopoint

AIRTOE ALUMINIUM TOE CAP

Made from aluminium to combine lightness with protection, ensuring thermal and dynamic comfort for the foot. Weighing approximately 54 grams, it is designed to maintain high safety standards without adding weight to the footwear.

SAVE & FLEX® PLUS

Save & Flex® PLUS anti-perforation insert. Textile, metal-free protective insert designed to provide superior lightness and flexibility compared to traditional steel plates. Sewn directly onto the upper, it ensures full-foot plantar protection. It offers sole penetration resistance up to 1100 N in compliance with current safety standards.

ESD (ELECTROSTATIC DISCHARGE)

Technology designed to continuously dissipate electrostatic charges accumulated by the human body to the ground. Certified footwear complies with the requirements of the CEI EN 61340 standards for the protection of electronic components, making it suitable for use in EPA (Electrostatic Protected Area) environments during both production and handling of sensitive devices.

U-POWER ORIGINAL

Anatomical footbed with arch support structure made from a soft dynamic BASF compound. It features self-moulding properties designed to evenly distribute body weight pressure across the sole of the foot, reducing pressure points and optimizing dynamic comfort.
