

Antares

HHS001OF

DESCRIPTION

Lightweight and extremely comfortable safety helmet with multi-function bar that protects against debris, sun, wind and rain. The **multi-function bar** allows for the **quick attachment** of various **accessories**, such as: badge holder, earmuffs, visor, headlamp strap and headlamp. **Non-slip, protective hard hat** with size adjustment system, **under-neck support** and **non-slip adjustment wheel**. The adjustment system of this **accident prevention helmet** guarantees comfort and stability thanks to the **high size adjustment range** and its design that does not interfere in the ear area. **Protective helmet with breathable, washable and interchangeable inner padding**. **Adjustable chin strap**, with a system of **criss-crossed imitation leather straps** on the nape, to guarantee **maximum comfort, stability** and a **snug fit**. **Headband adjustable** in 3 different positions. **EN 397:2012+A1:2012 protective hard hat** ideal for use in the following areas: **construction sites and building, ports, maintenance, woods and forests, industry, heavy industry, road work**. U-Power safety helmets are compatible with any type of earmuffs on the market.
