ARRYN ESD

0RT10124

DESCRIPTION

The Arryn from the Red Stratos range are safety shoes designed for those working in demanding, cold environments. With protection class S3S HI HRO FO ESD SR, they offer an ultra-lightweight NanoFiber toecap, metal-free perforation protection and PUTEK® star upper that is durable, breathable and water-repellent. The high-grip sole resists heat and oil, while the anatomical lining and footbed provide comfort and extended support, with integrated ESD protection for electrostatic safety.

UPPER

Putek Star high tenacity, water-repellent, breathable

LINING

Wingtex® with breathable aria tunnel

TOECAP

NanoFiber Toe Cap, ultralight, metal free.

ANTIPERFORATION

Ultra-lightweight anti-puncture footbed.

MIDSOLE

U-Power Original.

SOLE/TREAD

Black HRO rubber

ANATOMICAL INSOLE

Natural Confort 11 Mondopoint®

SAVE & FLEX AIR

Save & Flex Air anti-perforation insert. Ultra-lightweight (extralight) protective insert designed to effectively protect the foot from nails and sharp objects without adding extra weight to the footwear. It provides high safety standards, flexibility, and full-foot plantar coverage, enhancing dynamic comfort during movement.

PROTECTION CLASS

S3S CI HI HRO FO SR

EU NORM

EN ISO 20345:2022+A1:2024 S3S CI HI HRO FO SR

SIZES

35-48

PU TEK STAR

A protective fabric featuring a geometric star pattern. It offers durability, flexibility and a PVC-free construction. Certified to ISO 20344:11, it provides air circulation and breathability four times greater than the minimum requirements for S3 safety footwear.

NANOFIBER TOE

Made from nanofibre to ensure maximum protection whilst keeping the weight to a minimum. Weighing around 40 grams, it is the lightest option in the range, designed to optimise balance and reduce fatigue during prolonged use.

ESD (ELECTROSTATIC DISCHARGE)

Technology designed to continuously dissipate electrostatic charges accumulated by the human body to the ground. Certified footwear complies with the requirements of the CEI EN 61340 standards for the protection of electronic components, making it suitable for use in EPA (Electrostatic Protected Area) environments during both production and handling of sensitive devices.

SUPER CRITICAL TECHNOLOGY

Next-generation foam that combines extreme lightness with consistent energy return. It absorbs impact, reduces fatigue, and delivers a natural, continuous boost throughout the day.

U-POWER ORIGINAL

Anatomical footbed with arch support structure made from a soft dynamic BASF compound. It features self-moulding properties designed to evenly distribute body weight pressure across the sole of the foot, reducing pressure points and optimizing dynamic comfort.
