

Model: ASHTON UK s ESD

Protection Class: S3S CI FO SR

Article: LI10564

DESCRIPTION

S3S CI FO SR standard protection non-slip work shoes made of soft water-repellent Pull-Up leather with PU toe cap. Wind 3D lining with ventilation channels which absorb moisture and leave feet dry ensuring maximum breathability. The safety of the toes and front part of the foot is guaranteed by the super light Compo Toe Composite toe cap and keeps the shoes light. The anti-perforation SAFE-System, a puncture-proof, metal-free insole is made of composite material and protects the entire sole of the foot. Antistatic safety shoes with LUPOS maxi soft footbed cover and anatomic footbed made of soft breathable and antibacterial polyurethane which ensures comfort and prolonged well-being for the feet. The PU/PU sole is abrasion-resistant, antistatic, anti-oil and non-slip designed to guarantee maximum stability, even on very slippery surfaces. Winter hi-top safety shoes with specific protection to insulate the feet from the cold. The ideal shoes for use in outdoor environments, on rough ground and hazardous surfaces, in cold and damp environments. They are suitable in sectors, such as installations, construction, road works, port areas, agriculture and gardening.
