BERLINO s ESD

0RI21126

DESCRIPTION

Lightweight and comfortable safety shoes with breathable upper **in** soft **perforated suede and blue mesh inserts**. Contrasting white side bands and strings with **Wingtex® inner lining** and air channels, ensuring breathability and comfort. **Berlino** is a **safety shoe** with **fabric anti-perforation system** and **AirToe Composite toe cap** to protect the toe and 100% of the sole of the foot. Well-being and comfort are ensured by the **WOW2 self-modelling insole** composed of an arched insole structure and an **anti-fatigue insert**, able to cushion body stress and distribute body weight evenly. **Anti-slip safety shoes** with **oil-resistant**, **abrasion-resistant** and **anti-static soles**, ideal for **mechanics** and **tyre repairers**, **warehouse workers**, **carpenters**, **joiners**, **process workers**, **gas station operators**, **transport** and **logistics**, **craftsmen**, **builders**, **electricians**, **plumbers**, **gardeners** and **farmers**, **painters**. Work shoes suitable for both male and female audiences.

UPPER

Soft perforated suede, breathable, with mesh inserts

LINING

Wingtex® breathable air tunnel

TOECAP

AirToe Composite

ANTIPERFORATION

Save & Flex® PLUS

MIDSOLE

WOW2 anti-fatigue

SOLE/TREAD

Abrasion resistant, oil resistant, anti-slip, anti-static PU/PU

PROTECTION CLASS

S1PS FO SR

EU NORM

EN ISO 20345:2022 SB S1 PS FO SR

SIZES

35-48 (UK: 2-13)

ANATOMICAL INSOLE

Natural Confort 11 Mondopoint

AIRTOE COMPOSITE TOECAP

A versatile solution made from a completely metal-free composite material. Weighing approximately 50 grams, it offers excellent thermal insulation and a lightweight design suitable for prolonged use in a variety of working environments.

SAVE & FLEX® PLUS

Save & Flex® PLUS anti-perforation insert. Textile, metal-free protective insert designed to provide superior lightness and flexibility compared to traditional steel plates. Sewn directly onto the upper, it ensures full-foot plantar protection. It offers sole penetration resistance up to 1100 N in compliance with current safety standards.

ESD (ELECTROSTATIC DISCHARGE)

Technology designed to continuously dissipate electrostatic charges accumulated by the human body to the ground. Certified footwear complies with the requirements of the CEI EN 61340 standards for the protection of electronic components, making it suitable for use in EPA (Electrostatic Protected Area) environments during both production and handling of sensitive devices.

WOW 2

Anatomical footbed composed of two technical elements: an arch support structure made from a dynamic BASF compound with self-moulding properties, designed to evenly distribute body weight, and an anti-fatigue insert made from a special BASF compound. This combination reduces bodily stress caused by prolonged standing, helping to minimize daily fatigue throughout the working day.
