BOB s ESD

0SN10234

DESCRIPTION

High-top safety shoes with highly **scuff-resistant Putek Plus upper**. The **Wingtex® inner lining is an air tunnel**, with special micro cells which absorb and wick away moisture, ensuring excellent **breathability** and **long-lasting comfort**. **Anti-static**, **non-slip** and **oil-resistant footwear**, suitable for work on slippery surfaces or in contact with oil. The sole is made of PU/PU Light Grip. The **U-Power Original footbed cover** is designed to ensure **greater comfort** and a sensation of **prolonged well-being**, with **self-modelling properties** which distribute the body weight evenly over the entire sole of the foot. Toe safety is guaranteed by the **AirToe Aluminium toe cap** and **Save&Flex Plus anti-puncture system**, the innovative **light**, **flexible** and **safe "no metal" anti-puncture insole**, sewn directly onto the upper which ensure protection of the entire foot surface. The ideal **safety shoes** for workers, such as **warehouse workers**, **brick layers**, **joiners**, **plumbers**, **gardeners**, **farmworkers**, **tyre specialists**, **mechanics**, **electricians**, and in the **logistics** and **transport sector**.

PROTECTION CLASS

S3S CI FO SR

EU NORM

EN ISO 20345:2022 S3S CI FO SR

SIZES

35-48 (UK: 2-13)

UPPER

Highly scuff-resistant PUTEK® PLUS

LINING

Wingtex® with breathable air tunnel

TOECAP

AirToe Aluminium

ANTIPERFORATION

Save & Flex® PLUS® , pierce resistant "non metal"

MIDSOLE

U-Power original

SOLE/TREAD

PU/PU LIGHT GRIP

ANATOMICAL INSOLE

Natural Confort 11 Mondopoint

AIRTOE ALUMINIUM TOE CAP

Made from aluminium to combine lightness with protection, ensuring thermal and dynamic comfort for the foot. Weighing approximately 54 grams, it is designed to maintain high safety standards without adding weight to the footwear.

SAVE & FLEX® PLUS

Save & Flex® PLUS anti-perforation insert. Textile, metal-free protective insert designed to provide superior lightness and flexibility compared to traditional steel plates. Sewn directly onto the upper, it ensures full-foot plantar protection. It offers sole penetration resistance up to 1100 N in compliance with current safety standards.

ESD (ELECTROSTATIC DISCHARGE)

Technology designed to continuously dissipate electrostatic charges accumulated by the human body to the ground. Certified footwear complies with the requirements of the CEI EN 61340 standards for the protection of electronic components, making it suitable for use in EPA (Electrostatic Protected Area) environments during both production and handling of sensitive devices.

U-POWER ORIGINAL

Anatomical footbed with arch support structure made from a soft dynamic BASF compound. It features self-moulding properties designed to evenly distribute body weight pressure across the sole of the foot, reducing pressure points and optimizing dynamic comfort.
