

# BRANT ESD

0RV20366

## DESCRIPTION

**Brant** is the **light safety shoe** style that is ideal **for the summer season**, designed to keep your feet safe and comfortable throughout the working day. The **Nubuck-effect microfibre perforated upper** ensures excellent **breathability**. The holes encourage air circulation, improving breathability and preventing the inside of the shoe from getting hot and humid. The lightness of these shoes also helps make you more agile which is essential when working long hours on your feet. Safety is guaranteed by the light, but strong **AirToe Aluminium toe cap** and **ultra-light anti-perforation insole** that protects the sole of the foot from any punctures. The sole, made of new-generation PU blend, is non-slip, oil resistant and anti-static, ensuring **stability** and safety **even on very slippery surfaces**. Perfect for warehouse workers, electricians, carpenters and artisans looking for a reliable solution for their well-being at work. **Light, versatile** and **reliable**, Brant shoes are the ideal choice for the summer, ensuring protection and maximum comfort every day.

## UPPER

Perforated, Nubuck-effect microfibre

## LINING

Wingtex® with breathable air tunnel

## TOECAP

AirToe Aluminium

## ANTIPERFORATION

Ultra-light anti-perforation insole

## MIDSOLE

U-Power Original

## SOLE/TREAD

New generation PU blend

## ANATOMICAL INSOLE

Natural Confort 11 Mondopoint

## SAVE & FLEX AIR

Save & Flex Air anti-perforation insert. Ultra-lightweight (extralight) protective insert designed to effectively protect the foot from nails and sharp objects without adding extra weight to the footwear. It provides high safety standards, flexibility, and full-foot plantar coverage, enhancing dynamic comfort during movement.

## AIRTOE ALUMINIUM TOE CAP

Made from aluminium to combine lightness with protection, ensuring thermal and dynamic comfort for the foot. Weighing approximately 54 grams, it is designed to maintain high safety standards without adding weight to the footwear.

## ESD (ELECTROSTATIC DISCHARGE)

Technology designed to continuously dissipate electrostatic charges accumulated by the human body to the ground. Certified footwear complies with the requirements of the CEI EN 61340 standards for the protection of electronic components, making it suitable for use in EPA (Electrostatic Protected Area) environments during both production and handling of sensitive devices.

## U-POWER ORIGINAL

Anatomical footbed with arch support structure made from a soft dynamic BASF compound. It features self-moulding properties designed to evenly distribute body weight pressure across the sole of the foot, reducing pressure points and optimizing dynamic comfort.
