

# BRUCE s ESD

0RV20026

## DESCRIPTION

**Bruce** is the **super light safety shoe** style with a breathable **Nylon upper** and **abrasion-resistant scuff cap on the toe**. **Summer safety shoes** with an innovative sole made with a **new generation** ultra-light PU **compound**, which significantly **reduces** the overall **weight** of the **shoe**. The shoe is lighter than ever thanks to the use of an **ultra-light perforation-resistant system** to protect the sole of the foot and **AirToe Aluminium toecap**. **Comfort** and **prolonged wellness** are guaranteed by the presence of the **anatomical U-Power Original** in light polyurethane compound, **antibacterial** and **breathable**, and the **Wingtex® air tunnel lining** that ensures high breathability and foot health. **Safety shoes for men and women** with **non-slip**, **abrasion-resistant**, **oil-resistant** and **anti-static protection soles**. **Safety footwear** ideal for: **warehouse workers**, **transport & logistics**, **electricians**, **carpenters** and **craftsmen** in general.

## UPPER

Breathable nylon and abrasion-resistant scuff cap to protect the toe

## LINING

Wingtex® with breathable air tunnel

## TOECAP

AirToe Aluminium

## ANTIPERFORATION

Save & Flex Air

## MIDSOLE

U-Power Original

## SOLE/TREAD

Abrasion-resistant, oil-resistant, no-slip and anti-static in a new generation PU compound

## ANATOMICAL INSOLE

Natural Confort 11 Mondopoint

## SAVE & FLEX AIR

Save & Flex Air anti-perforation insert. Ultra-lightweight (extralight) protective insert designed to effectively protect the foot from nails and sharp objects without adding extra weight to the footwear. It provides high safety standards, flexibility, and full-foot plantar coverage, enhancing dynamic comfort during movement.

## PROTECTION CLASS

S1PS FO SR

## EU NORM

EN ISO 20345:2022 S1 PS FO SR

## SIZES

35-48 (UK: 2-13)

## AIRTOE ALUMINIUM TOE CAP

Made from aluminium to combine lightness with protection, ensuring thermal and dynamic comfort for the foot. Weighing approximately 54 grams, it is designed to maintain high safety standards without adding weight to the footwear.

## ESD (ELECTROSTATIC DISCHARGE)

Technology designed to continuously dissipate electrostatic charges accumulated by the human body to the ground. Certified footwear complies with the requirements of the CEI EN 61340 standards for the protection of electronic components, making it suitable for use in EPA (Electrostatic Protected Area) environments during both production and handling of sensitive devices.

## U-POWER ORIGINAL

Anatomical footbed with arch support structure made from a soft dynamic BASF compound. It features self-moulding properties designed to evenly distribute body weight pressure across the sole of the foot, reducing pressure points and optimizing dynamic comfort.
