

CLAY o ESD

0RI60391

DESCRIPTION

Clay styles are **Green safety shoes**. **Basic safety footwear** made from **recycled materials** and from **renewable sources** with **zero CO2 emissions**. The **AirToe Composite toe cap** is **ultra-lightweight** and protects the toes. **Safety shoes** with **New Safety Dry**, **water-repellent** and breathable upper with a high percentage of **recycled material**. Internal **antibacterial**, **anatomic**, **anti-static** and **self-modelling WOW2 Green insole** in PU by BASF, produced using 100% renewable sources which creates a pleasant sensation of lightness and well-being all day long. Wingtex® Green **lining** with **breathable air tunnel** made from 66% recycled materials. **Anti-static**, **scuff-resistant**, **oil resistant**, **non-slip** PU **sole** by BASF, obtained from 100% **renewable sources**. **Carbon Neutral safety shoes** ideal for the chemical industry.

UPPER

Soft microfibre with a high percentage of recycled material

LINING

Wingtex® Green breathable air tunnel containing 66% recycled material

TOECAP

AirToe Composite

ANTIPERFORATION

-

MIDSOLE

WOW2 Green

SOLE/TREAD

PU by BASF 100% made of renewable resource. Compact, abrasion resistant, oil resistant, anti-slip and ESD

PROTECTION CLASS

SB E A FO SR

EU NORM

EN ISO 20345:2022 E A FO SR

SIZES

35-48 (UK: 2-13)

ANATOMICAL INSOLE

Natural Confort 11 Mondopoint

AIRTOE COMPOSITE TOECAP

A versatile solution made from a completely metal-free composite material. Weighing approximately 50 grams, it offers excellent thermal insulation and a lightweight design suitable for prolonged use in a variety of working environments.

ESD (ELECTROSTATIC DISCHARGE)

Technology designed to continuously dissipate electrostatic charges accumulated by the human body to the ground. Certified footwear complies with the requirements of the CEI EN 61340 standards for the protection of electronic components, making it suitable for use in EPA (Electrostatic Protected Area) environments during both production and handling of sensitive devices.

WOW 2 GREEN

Eco-friendly footbed composed of two technical elements: an arch support structure made from BASF polyurethane (PU) sourced 100% from renewable resources, featuring self-moulding properties to evenly distribute body weight, and an anti-fatigue insert made from a special BASF compound. Designed to relieve stress associated with prolonged standing, it reduces daily fatigue during working hours.
