CLOVIS ESD

0UT10154

DESCRIPTION

U-Power **Clovis safety shoes** offer **maximum safety** and comfort **in extreme environments** and adverse weather conditions. The **water repellent, pull-up leather upper**, combined with the **GORE-TEX® Performance membrane**, **guarantees** perfect **waterproofing** and **breathability**, while keeping your feet dry at all times. Safety is guaranteed by the ultra-light and resistant **FiberToe toe cap**, together with the Save & Flex® PLUS anti-perforation insole that effectively protects from accidental punctures. The **PU/PU abrasion resistant**, **oil-resistant**, **anti-static** and **non-slip sole** ensures stability even on difficult, slippery ground. The pack includes **three interchangeable U-Power original insoles** to adapt the shoe to your own personal needs and increase daily comfort. Ideal for the building industry, agriculture and outdoor environments, these shoes provide superior resistance even in the presence of water, mud and extreme environmental conditions, ensuring long-term durability and reliability.

UPPER

Soft, strong, water repellent, pull-up leather with TPU support heel. Extra-strong PU toe cap

LINING

GORE-TEX Performance Membrane

TOECAP

FiberToe

ANTIPERFORATION

Save & Flex® PLUS

MIDSOLE

U-Power original

SOLE/TREAD

Abrasion resistant, oil resistant, anti-slip, anti-static PU/PU

ANATOMICAL INSOLE

Natural Confort 11-12-13 Mondopoint

GORE-TEX®

Thanks to the GORE-TEX® membrane, water stays out whilst sweat is wicked away, ensuring dry feet and optimal breathability in all working conditions. The technology also provides an effective barrier against the penetration of common chemicals, ensuring lasting protection and comfort throughout the day.

PROTECTION CLASS

S7S CI SC LG FO SR

EU NORM

EN ISO 20345:2022+A1:2024 S7S SC CI LG FO SR

SIZES

35-49 (UK: 2-13,5)

FIBERTOE TOE CAP

Made from fibreglass to provide high mechanical resistance to impact and crushing. Weighing approximately 52 grams, it offers thermal insulation, flexibility and comfort, whilst keeping the footwear lightweight and safe.

SAVE & FLEX® PLUS

Save & Flex® PLUS anti-perforation insert. Textile, metal-free protective insert designed to provide superior lightness and flexibility compared to traditional steel plates. Sewn directly onto the upper, it ensures full-foot plantar protection. It offers sole penetration resistance up to 1100 N in compliance with current safety standards.

ESD (ELECTROSTATIC DISCHARGE)

Technology designed to continuously dissipate electrostatic charges accumulated by the human body to the ground. Certified footwear complies with the requirements of the CEI EN 61340 standards for the protection of electronic components, making it suitable for use in EPA (Electrostatic Protected Area) environments during both production and handling of sensitive devices.

U-POWER ORIGINAL

Anatomical footbed with arch support structure made from a soft dynamic BASF compound. It features self-moulding properties designed to evenly distribute body weight pressure across the sole of the foot, reducing pressure points and optimizing dynamic comfort.
