## DESCRIPTION

Safety boots in soft, hard-wearing, water repellent, Pull-up leather with PU-reinforced scuff cap, double lace and Kevlar® DuPont™ stitching that ensure outstanding mechanical resistance to traction and heat. Safety footwear with special insulation against heat and cold. The sole in PU/Vibram is particularly suited for use on treacherous surfaces and uneven ground, improving stability and grip. Aluminium AirToe toe cap to protect the tip of the foot and Save & Flex® PLUS, all-fabric, anti-puncture system stitched directly onto the upper for total coverage of the surface of the foot. Comfort is guaranteed by the WOW insole, an anatomic insole in soft, breathable, anti-bacterial polyurethane whilst the Infinergy® system ensures over 55% of energy is returned with each step. The WingTex air tunnel inner lining ensures breathability and dispersion of moisture. Ideal work shoes for wet and cold environments, for building sites, gardens and agriculture, installations, port areas, road works and maintenance and in every situation in which outdoor footwear is required that has a particular need for the sole of the shoe to be insulated against heat and cold and the sole to have greater resistance to heat. Anti-slip, oil resistant and abrasion resistant sole.
