DESCRIPTION

Sustainable work shoes in standard protection S3S CI FO SR with upper in PUTEK® spider repet with a high percentage of recycled material, highly resistant to abrasion, water repellent and breathable. Wind 3D lining for absolute breathability thanks to the microcells that absorb and disperse moisture, ensuring greater comfort and foot wellness. The safety of the toes is ensured by the super light CompoToe Composite toe cap and by the safety toe cap in PU. The GREEN SAFE System puncture-resistant system in recycled material ensures the protection of the entire sole of the foot. The fit of these eco-sustainable safety shoes is optimal and the comfort is increased by the LUPOS maxi soft sock liner in polyurethane foam by BASF. The sole is 100% renewable polyurethane foam by BASF, anti-abrasion, anti-static, anti-oil and anti-slip, designed to ensure grip even on the roughest terrains and most slippery surfaces with the right attention to sustainability and respect for the environment. S3S safety shoes with specific protection to isolate the foot from the cold in the winter months. Ideal shoes for industry, logistics, automotive and assembly line.
