DAVE s

0RL20524

DESCRIPTION

Work shoes with sole in PU/Vibram, particularly suited to any situation in which there is a particular need for the sole of the shoe to be insulated against heat and cold and the sole to have greater resistance to heat. The upper in soft, water repellent, Pull-up leather and the Kevlar® DuPontTM stitching ensure strength, durability and thermal insulation. The PU-reinforced scuff cap and double yellow and black laces ensure robust, secure lacing. Protection is guaranteed by the aluminium AirToe toe cap and the Save & Flex®PLUS, “No Metal”, anti-puncture system. Safety footwear with anti-slip, abrasion resistant and oil resistant sole. These safety shoes have the Infinergy® system mid-sole and ensure over 55% of energy is returned with each step. Foot health is guaranteed by the ultra-breathable Wingtex® air tunnel. Dave is suitable for use in wet and cold environments, for outdoor use on treacherous surfaces and uneven ground such as construction and building sites, road works and maintenance, installations, port areas, agriculture and gardens.

PROTECTION CLASS

S3S CI HI HRO FO SR

EU NORM

EN ISO 20345:2022 S3S HRO HI CI FO SR

SIZES

38-48 (UK: 5-13)

UPPER

Water repellent, Pull-up leather

TOECAP

AirToe Aluminium

MIDSOLE

U-Power original

ANATOMICAL INSOLE

Natural Confort 11 Mondopoint®

LINING

Wingtex® breathable air tunnel

ANTIPERFORATION

Save & Flex® PLUS®, anti-puncture, “no metal” fabric insole

SOLE/TREAD

PU/VIBRAM and Infinergy®

VIBRAM®

A world leader in the industry, Vibram® develops rubber soles designed to ensure grip, stability, durability and safety. The result of over 80 years of research and innovation, they combine advanced design and exclusive compounds to deliver high performance, comfort and reliability in any environment.

AIRTOE ALUMINIUM TOE CAP

Made from aluminium to combine lightness with protection, ensuring thermal and dynamic comfort for the foot. Weighing approximately 54 grams, it is designed to maintain high safety standards without adding weight to the footwear.

SAVE & FLEX® PLUS

Save & Flex® PLUS anti-perforation insert. Textile, metal-free protective insert designed to provide superior lightness and flexibility compared to traditional steel plates. Sewn directly onto the upper, it ensures full-foot plantar protection. It offers sole penetration resistance up to 1100 N in compliance with current safety standards.

INFINERGY®

Closed-cell expanded polyurethane cushioning insert designed to return energy with every step. Engineered to reduce muscle fatigue, it provides consistent energy return during both walking and prolonged work activities, ensuring high levels of comfort and long-lasting cushioning in all working conditions.

U-POWER ORIGINAL

Anatomical footbed with arch support structure made from a soft dynamic BASF compound. It features self-moulding properties designed to evenly distribute body weight pressure across the sole of the foot, reducing pressure points and optimizing dynamic comfort.
