DESCRIPTION

Safety footwear with Airtoe Composite toe cap and **Save & Flex® PLUS anti-perforation system** for complete protection of the toe and sole. **Low-cut**, **ultra-breathable work shoes** with upper in nylon, inserts in soft suede and Wingtex® inner **air tunnel lining**, ideal in the warmer months. Comfort is guaranteed by the **WOW2 insole** consisting of a self-modelling arched insole structure and an **anti-fatigue insert** capable of districuting body stress and improving **balance** and **stability**, significantly increasing the perception of **well-being**. **Anti-static safety shoes** with **oil-resistant**, **anti-slip** and **abrasion-resistant** sole. **Comfortable and lightweight work shoes** for **men** and **women** that are well suited to be used in various working environments such as: **transport** & **logistics**, **construction sites** and **builders**, **craftsmen**, **carpenters**, **electricians**, **plumbers**, **painters**, **process workers**, **gas station operators**, **gardeners** and **farmers**, **mechanics** and **tyre repairers**.

UPPER

Ultra breathable nylon and soft suede

LINING

Wingtex® breathable air tunnel

TOECAP

AirToe Composite

ANTIPERFORATION

Save & Flex® PLUS

MIDSOLE

WOW2 anti-fatigue

SOLE/TREAD

Abrasion resistant, oil resistant, anti-slip, anti-static PU/PU

PROTECTION CLASS

S1PS FO SR

ANATOMICAL INSOLE

Natural Confort 11 Mondopoint

AIRTOE COMPOSITE TOECAP

A versatile solution made from a completely metal-free composite material. Weighing approximately 50 grams, it offers excellent thermal insulation and a lightweight design suitable for prolonged use in a variety of working environments.

EU NORM

EN ISO 20345:2022 SB S1 PS FO SR

SAVE & FLEX® PLUS

Save & Flex® PLUS anti-perforation insert. Textile, metal-free protective insert designed to provide superior lightness and flexibility compared to traditional steel plates. Sewn directly onto the upper, it ensures full-foot plantar protection. It offers sole penetration resistance up to 1100 N in compliance with current safety standards.

SIZES

38-47 (UK: 5-12)

ESD (ELECTROSTATIC DISCHARGE)

Technology designed to continuously dissipate electrostatic charges accumulated by the human body to the ground. Certified footwear complies with the requirements of the CEI EN 61340 standards for the protection of electronic components, making it suitable for use in EPA (Electrostatic Protected Area) environments during both production and handling of sensitive devices.

WOW 2

Anatomical footbed composed of two technical elements: an arch support structure made from a dynamic BASF compound with self-moulding properties, designed to evenly distribute body weight, and an anti-fatigue insert made from a special BASF compound. This combination reduces bodily stress caused by prolonged standing, helping to minimize daily fatigue throughout the working day.
