DOM

WSK405BS

DESCRIPTION

The **Dom** thermal shirt is the essential first layer for tackling cold or fluctuating workdays. Made from a **technical, quick-drying fabric** (65% polyamide – 35% polyester), it offers the perfect balance between **thermal insulation** and **breathability** , keeping your body warm and dry even during the most intense tasks.
Breathable inserts positioned on the shoulders and sides provide targeted ventilation in the areas where you sweat the most, supporting constant body temperature regulation and ensuring optimal comfort. Its ergonomic **cut and close-fitting design** allow the shirt to move with your body without restriction, making it the perfect base layer under jackets, sweatshirts or winter workwear. Choose Dom for reliable protection and lasting comfort in every working condition.
