

DUBLINO

WIN231BR

DESCRIPTION

Dublino is a work vest designed for professionals looking for a functional, high-quality garment. Made from mechanical stretch Soft Shell fabric, this U-Power work vest offers excellent breathability and protection, with both windproof and water-repellent properties. Its multi-pocket design makes it extremely practical for a variety of work activities.

This multi-pocket work vest features two zipped front pockets, ideal for keeping tools and belongings secure and easily accessible. The adjustable drawcord and shaped hem further improve the fit, allowing personalised adjustment and maximising comfort.

Ideal for a wide range of working environments, the Dublino vest stands out for its versatility. It is particularly suitable for sectors such as transport and logistics, building and construction, services and industry, where weather resistance and practicality are essential.

The product is also available in a pack of 10 (code CY231).
