EGON s ESD

0RN20016

DESCRIPTION

Egon are safety shoes with a **Made in Italy design** characterised by the use of **innovative materials** that suit everyone's tastes, while maintaining their protection and comfort characteristics intact. Comfortable, low-cut safety shoes with **breathable nylon and suede microfibre upper with polyurethane reinforcement scuff-cap**.
Comfort is enhanced by the **soft white calfskin lining** that extends from the toes to the heel, wrapping the foot like a sock. The **Infinergy® system** and the soft expanded PU insole increase the already high perception of comfort and well-being of the foot as Infinergy® is an innovative technology designed to achieve an **energy return of more than 55% at each step**. Safety shoes with **U-Power Original insole**, the innovative, **breathable**, **antibacterial** and **anatomical insole** in soft leather. Safety has always been the hallmark of U-Power safety footwear: **AirToe Aluminium toe cap** to protect the toes and the front part of the foot, and the **Save & Flex® PLUS textile anti-puncture system**. **Non-slip properties** to ensure maximum stability and balance on even the most slippery or oily surfaces.

PROTECTION CLASS

S1PS FO SR

EU NORM

EN ISO 20345:2022 SB S1 PS FO SR

SIZES

35-48 (UK: 2-13)

UPPER

Breathable nylon and suede microfibre with polyurethane reinforcement toe-cover

LINING

Soft white calfskin

TOECAP

AirToe Aluminium

ANTIPERFORATION

Save & Flex® PLUS

MIDSOLE

U-Power original, Anatomic arch structure made of soft leather, breatheable and antibacterial

SOLE/TREAD

PU/PU and Infinergy®

ANATOMICAL INSOLE

Natural Confort 11 Mondopoint

AIRTOE ALUMINIUM TOE CAP

Made from aluminium to combine lightness with protection, ensuring thermal and dynamic comfort for the foot. Weighing approximately 54 grams, it is designed to maintain high safety standards without adding weight to the footwear.

WHITE TEX

Made from nanofibre to ensure maximum protection whilst keeping the weight to a minimum. Weighing around 40 grams, it is the lightest option in the range, designed to optimise balance and reduce fatigue during prolonged use.

SAVE & FLEX® PLUS

Save & Flex® PLUS anti-perforation insert. Textile, metal-free protective insert designed to provide superior lightness and flexibility compared to traditional steel plates. Sewn directly onto the upper, it ensures full-foot plantar protection. It offers sole penetration resistance up to 1100 N in compliance with current safety standards.

ESD (ELECTROSTATIC DISCHARGE)

Technology designed to continuously dissipate electrostatic charges accumulated by the human body to the ground. Certified footwear complies with the requirements of the CEI EN 61340 standards for the protection of electronic components, making it suitable for use in EPA (Electrostatic Protected Area) environments during both production and handling of sensitive devices.

INFINERGY®

Closed-cell expanded polyurethane cushioning insert designed to return energy with every step. Engineered to reduce muscle fatigue, it provides consistent energy return during both walking and prolonged work activities, ensuring high levels of comfort and long-lasting cushioning in all working conditions.

U-POWER ORIGINAL LEATHER FOOTBED

Anatomically shaped footbed made of soft white calf leather with arch support structure. It features a self-moulding BASF compound designed to evenly distribute body weight pressure across the sole of the foot, enhancing comfort throughout the day.
