DESCRIPTION

Super light safety shoes ideal for spring and summer. These **safety shoes**, with **breathable nylon upper** and abrasion-resistant **toe protection**, ensure a **unique lightness** and maximum safety: **AirToe Aluminium toecap**, innovative ultralight **puncture-proof textile insole** and **latest-generation tread** in **abrasion-resistant, oil-resistant, no-slip** and **anti-static PU compound**. This style of **ultra-light safety shoes**, available for both **men** and **women**, ensures high performance and greater energy during work, thanks to the **considerable shoe weight reduction**, which translates into prolonged wellness and dynamism. Breathability and comfort are guaranteed by the **antibacterial, anatomical** and **super breathable U-Power Original** and the **Wingtex® air tunnel lining**. **Lightweight safety shoes** suitable for use in dry environments, ideal for: **transport & logistics, warehouse workers, carpenters, electricians** and **craftsmen** in general.

UPPER

Breathable nylon and abrasion-resistant scuff cap to protect the toe

LINING

Wingtex® with breathable air tunnel

TOECAP

AirToe Aluminium

ANTIPERFORATION

Save & Flex Air

MIDSOLE

U-Power Original

SOLE/TREAD

Abrasion-resistant, oil-resistant, no-slip and anti-static in a new generation PU compound

ANATOMICAL INSOLE

Natural Confort 11 Mondopoint

SAVE & FLEX AIR

Save & Flex Air anti-perforation insert. Ultra-lightweight (extralight) protective insert designed to effectively protect the foot from nails and sharp objects without adding extra weight to the footwear. It provides high safety standards, flexibility, and full-foot plantar coverage, enhancing dynamic comfort during movement.

AIRTOE ALUMINIUM TOE CAP

Made from aluminium to combine lightness with protection, ensuring thermal and dynamic comfort for the foot. Weighing approximately 54 grams, it is designed to maintain high safety standards without adding weight to the footwear.

ESD (ELECTROSTATIC DISCHARGE)

Technology designed to continuously dissipate electrostatic charges accumulated by the human body to the ground. Certified footwear complies with the requirements of the CEI EN 61340 standards for the protection of electronic components, making it suitable for use in EPA (Electrostatic Protected Area) environments during both production and handling of sensitive devices.

U-POWER ORIGINAL

Anatomical footbed with arch support structure made from a soft dynamic BASF compound. It features self-moulding properties designed to evenly distribute body weight pressure across the sole of the foot, reducing pressure points and optimizing dynamic comfort.

PROTECTION CLASS

S1PS FO SR

EU NORM

EN ISO 20345:2022

SIZES

35-48 (UK: 2-13)
