

GARY s ESD

0RV30336

DESCRIPTION

Gary is a **men's work sandal** that responds to the needs of **lightness** and **comfort** without forgetting the need to always ensure **maximum protection**. Super light work sandals with upper in **microfibre with the water-repellent Nabuk effect**. Ulltralight work shoes with **Wingtex® lining with breathable air tunnel** that ensures an ideal microclimate in that it absorbs and disperses moisture thanks to its special microcells.
Comfort is increased by the **Original U-Power anatomic insole** in soft polyurethane, **breathable** and **antibacterial** for a sensation of durable and prolonged wellness. The safety is the same as always: **AirToe Aluminium toe cap** to protect the toes and front part of the foot and **ultralight Save&Flex Air anti-puncture system** that ensures maximum protection of the entire sole of the foot, being an anti-puncture insole sewn directly to the upper. A further innovation of these men's and women's work sandals is provided by the **anti-slip and anti-static sole in new generation PU blend**. The Gary work sandal is ideal for **craftsmen and women**, **electricians**, **carpenters**, **warehouse**, **transport** and **logistics workers**.

PROTECTION CLASS

S1PS FO SR

EU NORM

EN ISO 20345:2022 SB S1 PS FO SR

SIZES

35-48 (UK: 2-13)

UPPER

Water-repellent, Nubuck-effect microfibre

LINING

Wingtex® with breathable air tunnel

TOECAP

AirToe Aluminium

ANTIPERFORATION

Save & Flex® Air

MIDSOLE

U-Power Original, anatomic in soft polyurethane, breathable and antibacterial

SOLE/TREAD

New generation PU blend

ANATOMICAL INSOLE

Natural Confort 11 Mondopoint

SAVE & FLEX AIR

Save & Flex Air anti-perforation insert. Ultra-lightweight (extralight) protective insert designed to effectively protect the foot from nails and sharp objects without adding extra weight to the footwear. It provides high safety standards, flexibility, and full-foot plantar coverage, enhancing dynamic comfort during movement.

AIRTOE ALUMINIUM TOE CAP

Made from aluminium to combine lightness with protection, ensuring thermal and dynamic comfort for the foot. Weighing approximately 54 grams, it is designed to maintain high safety standards without adding weight to the footwear.

ESD (ELECTROSTATIC DISCHARGE)

Technology designed to continuously dissipate electrostatic charges accumulated by the human body to the ground. Certified footwear complies with the requirements of the CEI EN 61340 standards for the protection of electronic components, making it suitable for use in EPA (Electrostatic Protected Area) environments during both production and handling of sensitive devices.

U-POWER ORIGINAL

Anatomical footbed with arch support structure made from a soft dynamic BASF compound. It features self-moulding properties designed to evenly distribute body weight pressure across the sole of the foot, reducing pressure points and optimizing dynamic comfort.
