## DESCRIPTION

**Black work shoes with water repellent upper** in soft, tumbled natural nubuck leather. **Safety footwear with Airtoe Composite toe cap** and fabric Save & Flex® PLUS **anti-perforation** system, which guarantees the safety of the toe and the sole of the foot. **Anti-slip, oil-resistant, anti-static, abrasion-resistant safety shoes** that ensure special **protection of the sole from the cold** (at temp. ≤ 10 °C.). **Lightweight safety footwear with anatomical and self-modelling insole** with a high level of comfort, equipped with an **anti-fatigue insert** capable of reducing body stress and giving greater stability and balance. The **highly breathable Wingtex® air tunnel lining** ensures well-being and foot health. **Work shoes suitable for use in different areas, ideal for mechanics, tyre repairers, transport and logistics, farmers, gardeners, workers, electricians, plumbers, carpenters, painters, gas station operators.**

## UPPER

Soft natural tumbled nubuck leather, water repellent

## LINING

Wingtex® breathable air tunnel

## TOECAP

AirToe Composite

## ANTIPERFORATION

Save & Flex® PLUS

## MIDSOLE

WOW2 anti-fatigue

## SOLE/TREAD

Abrasion resistant, oil resistant, anti-slip, anti-static PU/PU

## ANATOMICAL INSOLE

Natural Confort 11 Mondopoint

## AIRTOE COMPOSITE TOECAP

A versatile solution made from a completely metal-free composite material. Weighing approximately 50 grams, it offers excellent thermal insulation and a lightweight design suitable for prolonged use in a variety of working environments.

## SAVE & FLEX® PLUS

Save & Flex® PLUS anti-perforation insert. Textile, metal-free protective insert designed to provide superior lightness and flexibility compared to traditional steel plates. Sewn directly onto the upper, it ensures full-foot plantar protection. It offers sole penetration resistance up to 1100 N in compliance with current safety standards.

## PROTECTION CLASS

S3S CI FO SR

## EU NORM

EN ISO 20345:2022

## SIZES

35-48 (UK: 2-13)

## ESD (ELECTROSTATIC DISCHARGE)

Technology designed to continuously dissipate electrostatic charges accumulated by the human body to the ground. Certified footwear complies with the requirements of the CEI EN 61340 standards for the protection of electronic components, making it suitable for use in EPA (Electrostatic Protected Area) environments during both production and handling of sensitive devices.

## WOW 2

Anatomical footbed composed of two technical elements: an arch support structure made from a dynamic BASF compound with self-moulding properties, designed to evenly distribute body weight, and an anti-fatigue insert made from a special BASF compound. This combination reduces bodily stress caused by prolonged standing, helping to minimize daily fatigue throughout the working day.
