

GREGOR ESD

ORT20154

DESCRIPTION

The Gregor combines safety and comfort for everyday professional use. With a lightweight NanoFiber toe cap, ultra-lightweight anti-puncture midsole, oil and heat resistant (HRO) outsole and ESD protection, they guarantee complete safety on demanding surfaces. The breathable lining and anatomical U-Power Original footbed ensure comfort and extended support, ideal for industry, logistics and technical environments.

UPPER

Soft black tumbled Nubuck leather

LINING

Wingtex® with breathable aria tunnel

TOECAP

NanoFiber Toe Cap, ultralight, metal free.

ANTIPERFORATION

Ultra-lightweight anti-puncture footbed.

MIDSOLE

U-Power Original.

SOLE/TREAD

Black HRO rubber

ANATOMICAL INSOLE

Natural Confort 11 Mondopoint®

SAVE & FLEX AIR

Save & Flex Air anti-perforation insert. Ultra-lightweight (extralight) protective insert designed to effectively protect the foot from nails and sharp objects without adding extra weight to the footwear. It provides high safety standards, flexibility, and full-foot plantar coverage, enhancing dynamic comfort during movement.

NANOFIBER TOE

Made from nanofibre to ensure maximum protection whilst keeping the weight to a minimum. Weighing around 40 grams, it is the lightest option in the range, designed to optimise balance and reduce fatigue during prolonged use.

ESD (ELECTROSTATIC DISCHARGE)

Technology designed to continuously dissipate electrostatic charges accumulated by the human body to the ground. Certified footwear complies with the requirements of the CEI EN 61340 standards for the protection of electronic components, making it suitable for use in EPA (Electrostatic Protected Area) environments during both production and handling of sensitive devices.

U-POWER ORIGINAL

Anatomical footbed with arch support structure made from a soft dynamic BASF compound. It features self-moulding properties designed to evenly distribute body weight pressure across the sole of the foot, reducing pressure points and optimizing dynamic comfort.

SUPER CRITICAL TECHNOLOGY

Next-generation foam that combines extreme lightness with consistent energy return. It absorbs impact, reduces fatigue, and delivers a natural, continuous boost throughout the day.
