DESCRIPTION

High-cut and **robust work shoes** with upper in **water repellent**, soft and resistant pull-up leather.
Safety shoes with Airtoe **composite toe cap** and Save & Flex® PLUS fabric **anti-perforation system**, sewn directly onto the upper to guarantee **100% protection** over the entire surface of the foot. The **highly breathable** air tunnel inner **lining** guarantees foot health and well-being. Comfort is increased by the **WOW2 insole** **** which, thanks to its self-modelling arched insole structure with **anti-fatigue insert**, allows for a reduction in body stress and better stability and balance, guaranteeing **greater safety** and a feeling of **long-lasting well-being**. **Men's safety shoes**, also ideal for women, suitable for use in **damp and cold environments** such as **farmers** and **gardeners** but also for **craftsmen**, **electricians**, **plumbers**, **carpenters**, **painters**, **gas station operators**, **workers**, **construction sites** and **builders**, **mechanics** and **tyre repairers**, **transport** and **logistics**. **Anti-slip work shoes** with **oil-resistant**, **anti-static**, **abrasion-resistant** PU/PU sole and special **protection from the cold** (at temp. ≤ 10 °C.).

PROTECTION CLASS

S3S CI SC LG FO SR

EU NORM

EN ISO 20345:2022 S3S CI LG SC FO SR

SIZES

35-48 (UK: 2-13)

UPPER

Soft, strong, water repellent, pull-up leather

LINING

Wingtex® breathable air tunnel

TOECAP

AirToe Composite

ANTIPERFORATION

Save & Flex® PLUS

MIDSOLE

WOW2 anti-fatigue

SOLE/TREAD

Abrasion resistant, oil resistant, anti-slip, anti-static PU/PU

ANATOMICAL INSOLE

Natural Confort 11 Mondopoint

AIRTOE COMPOSITE TOECAP

A versatile solution made from a completely metal-free composite material. Weighing approximately 50 grams, it offers excellent thermal insulation and a lightweight design suitable for prolonged use in a variety of working environments.

SAVE & FLEX® PLUS

Save & Flex® PLUS anti-perforation insert. Textile, metal-free protective insert designed to provide superior lightness and flexibility compared to traditional steel plates. Sewn directly onto the upper, it ensures full-foot plantar protection. It offers sole penetration resistance up to 1100 N in compliance with current safety standards.

ESD (ELECTROSTATIC DISCHARGE)

Technology designed to continuously dissipate electrostatic charges accumulated by the human body to the ground. Certified footwear complies with the requirements of the CEI EN 61340 standards for the protection of electronic components, making it suitable for use in EPA (Electrostatic Protected Area) environments during both production and handling of sensitive devices.

WOW 2

Anatomical footbed composed of two technical elements: an arch support structure made from a dynamic BASF compound with self-moulding properties, designed to evenly distribute body weight, and an anti-fatigue insert made from a special BASF compound. This combination reduces bodily stress caused by prolonged standing, helping to minimize daily fatigue throughout the working day.
