

Model: HERCULES s

Protection Class: S7S CI HI HRO FO SR

Article: LI70614

DESCRIPTION

Waterproof winter work shoes in soft water-repellent leather and super-breathable Wingtex lining with microcells that absorb and disperse the moisture. Waterproof safety shoes in standard protection S7S CI HI HRO FO SR with specific protection for isolating the bottom of the footwear from cold and heat, but also to allow the sole to resist contact heat. The super light CompoToe Composite toe cap protects the toes and the front part of the foot while the SAFE System anti-puncture system protects the entire sole of the foot. High-cut work shoes with anatomic insole in breathable and antibacterial soft polyurethane and the LUPOS soft sock liner and elastopan by BASF. The sole of these S7S safety shoes is made in PU and Vibram and is designed to ensure maximum stability and grip even on the roughest terrain and surfaces, as well as to be super resistant. High-cut work shoes ideal for steel, oil, assembly, chemical industry, cold and humid environments.
