

Model: KALEO s ESD

EU Norm: EN ISO 20344:2021

Article: 0RN20074

DESCRIPTION

Kaleo are safety shoes that are the result of the combination of **Italian design** and innovation through the use of **high quality materials**, with the safety and protection that has always characterised U-Power footwear. Low-cut safety shoes with **high tenacity PUTEK® CAP** upper, **water-repellent** and **breathable** with **polyurethane reinforcement scuff cap**. The **soft white calfskin lining** wraps around the foot like a sock and extends from the toes to the heel. Non-slip safety shoes equipped with **CI protection for insulation against the cold** of the sole of the shoes and **U-Power Original anatomical, antibacterial** and **breathable insole** in soft leather. The **Infinergy® system ensures an optimal energy return of more than 55%** with each step, increasing comfort and well-being every day. Non-slip safety shoes with **AirToe Aluminium toe cap** that guarantees excellent safety and protection of the toes and the forefoot. Kaleo footwear is equipped with a **completely metal-free Save & Flex PLUS anti-perforation system** and consists of an anti-puncture insole that ensures the total protection of the entire sole of the foot as it is stitched directly to the upper.
