

Model: KEMI

Article: WHY368GM

DESCRIPTION

The **Kemi** work bomber jacket is the perfect solution for tackling **cold seasons** with lightness, comfort, and durability. This padded winter bomber is **water-repellent** and features heat-sealed seams on the armholes and shoulders to keep you protected from the elements. The inner collar made of soft microfleece, along with elasticated ribbed hem and cuffs, ensures a snug and comfortable fit.

Kemi is a multi-pocket bomber jacket offering unmatched functionality and convenience. The front includes two **zippered hand-warmer pockets** and two multifunctional chest pockets: one with a pen holder compartment and the other with an additional vertical zip pocket.

In addition, there are two large inner pockets at the bottom—one mesh and one with a zipper—and a vertical chest pocket, giving you all the storage space you need at your fingertips. The design is enhanced with smart details that blend style and practicality.

The **foldaway hood** with adjustable drawstring and **reflective inserts** on the logo and back improve your visibility in low-light conditions.

Designed with customization in mind, the jacket includes a rear internal opening for easy access to printing and embroidery—making the Kemi bomber your ideal ally for every work challenge.
