

Model: KENNETH

Article: WIN422GI

DESCRIPTION

The U-Power Kenneth work trouser is made of cotton/polyester stretch fabric, designed to offer comfort and practicality during work activities. The central plastic zip fastener with concealed metal hook ensures a stable and functional fit.

Equipped with an elastic waistband for superior comfort, it has triple stitching for added strength. The multi-pocket design includes two large multi-functional side pockets and two back pockets, all with Velcro fasteners, as well as two front slash pockets. Reflex inserts on the side and back pockets improve visibility in low-light conditions.

Available in packs of 20 pcs (WCY422)
