KYRA

WIN289WB

DESCRIPTION

The Kyra **work jacket** by **U-Power** is a garment designed to offer **comfort** and **protection** in all weather conditions. Made of **mechanical stretch Soft Shell fabric**, this jacket features exceptional **breathability**, as well as being **windproof** and **water-repellent**, thus guaranteeing an excellent defence against the weather. The Kyra **winter work jacket** has two handy zipped front pockets, perfect for safely storing personal items and work tools. One of its strong points is the **detachable hood**, also with a zip closure, which offers added versatility based on your needs and the weather conditions. The pre-shaped jacket sleeves ensure an excellent fit, following the body's natural movement and increasing comfort during work. The **reflective inserts** on the elbows **boost visibility** and safety in places with poor lighting. For greater comfort, this winter work jacket is fitted with an adjustable drawstring and cuffs, ensuring an excellent individual fit. The shaped bottom adds a touch of style to the jacket as well as extra cover and protection. Available in three different colour variations: **Black Carbon**, **Westlake Blue**, **Grey Iron**.
Work jacket suitable for use in the **transport** and **logistics**, **building** and **construction**, **service** and **industry** sectors. The work vest is also available in bundles of 10 (code CY289).

MECHANICAL STRETCH

Structural elasticity without added elastic fibers. Ensures comfort, flexibility and long-term shape recovery.
