LEE s ESD

0RL20283

DESCRIPTION

U-Power safety shoes, totally "Metal free" with no laces, lightweight and comfortable from the RedLion® range, with water-repellent, breathable New Safety Dry, AirToe composite toe cap, and Save & Flex® PLUS **anti-perforation system**, designed to ensure **long-lasting comfort for your feet**. This **U-Power safety work footwear** is low-cut and black with no laces. They ensure comfort and lightness thanks to the **innovative Infinergy® system** sole, U-Power Original footbed cover and PU/PU foam sole. The **Lee** style is a **U-Power safety shoe** with a compact PU tread that provides adherence, safety and stability to the posture. This footwear is suitable for use in **chemical environments**.

UPPER

New Safety Dry, water-repellent, breathable

LINING

Wingtex® with breathable air tunnel

TOECAP

Airtoe Composite

ANTIPERFORATION

Save & Flex® PLUS

MIDSOLE

U-Power original

SOLE/TREAD

PU/PU and Infinergy®

ANATOMICAL INSOLE

Natural Confort 11 Mondopoint

AIRTOE COMPOSITE TOECAP

A versatile solution made from a completely metal-free composite material. Weighing approximately 50 grams, it offers excellent thermal insulation and a lightweight design suitable for prolonged use in a variety of working environments.

PROTECTION CLASS

S3S FO SR

EU NORM

EN ISO 20345:2022 S3S FO SR

SIZES

35-48 (UK: 2-13)

SAVE & FLEX® PLUS

Save & Flex® PLUS anti-perforation insert. Textile, metal-free protective insert designed to provide superior lightness and flexibility compared to traditional steel plates. Sewn directly onto the upper, it ensures full-foot plantar protection. It offers sole penetration resistance up to 1100 N in compliance with current safety standards.

ESD (ELECTROSTATIC DISCHARGE)

Technology designed to continuously dissipate electrostatic charges accumulated by the human body to the ground. Certified footwear complies with the requirements of the CEI EN 61340 standards for the protection of electronic components, making it suitable for use in EPA (Electrostatic Protected Area) environments during both production and handling of sensitive devices.

INFINERGY®

Closed-cell expanded polyurethane cushioning insert designed to return energy with every step. Engineered to reduce muscle fatigue, it provides consistent energy return during both walking and prolonged work activities, ensuring high levels of comfort and long-lasting cushioning in all working conditions.

U-POWER ORIGINAL

Anatomical footbed with arch support structure made from a soft dynamic BASF compound. It features self-moulding properties designed to evenly distribute body weight pressure across the sole of the foot, reducing pressure points and optimizing dynamic comfort.
