DESCRIPTION

Combining comfort and style, the Leeds **U-Power work sweatshirt** is designed for those in need of a high-performance technical garment. Its **smooth outer surface provides durability and protection**, while the **soft, warm interior** ensures comfort even on cooler days. Thanks to its **breathability and quick-drying properties**, this sweatshirt is ideal for workers on the move who require practical, high-performing attire. The **ergonomic cut with raglan sleeves** provides excellent mobility, and the **high collar with a half-zip closure** allows easy ventilation adjustments. The contrast-colored zipper teeth add a touch of style, making the sweatshirt stand out. A **vertical chest pocket** in technical fabric offers handy storage for essential items, secured with a zipper. **Design features** like contrasting panels on the sides and elbows give it a dynamic, modern look, while elasticated ribbed cuffs and hem improve fit and comfort. **Reflective elements**, including the "lion's head" rubber label logo on the side pocket and the "U-Power" print beneath the collar, **enhance visibility** in low-light environments, boosting workplace safety. Suitable for wearing on its own or as a mid-layer beneath a jacket, this **half-zip sweatshirt** offers a versatile solution for all-season work. Its blend of technical materials and functional details makes it the perfect choice for professionals who need the right balance of performance and style.
