DESCRIPTION

Low and light safety shoes with innovative perforation-resistant system consisting of an **ultralight puncture-resistant textile insole** and new generation PU compound **sole**. These new highly innovative materials have allowed a considerable **reduction** in the overall **weight** of the **shoe** to the benefit of the well-being of the worker. **Super light safety shoes** with particular **protection of the sole from the cold** ($\leq 10^{\circ}\text{C}$). High-sturdiness **PUTEK® star upper** and toe protection with **abrasion-resistant scuff cap**. **Non-slip, oil-resistant, abrasion-resistant** and **anti-static sole**. **Super light safety shoes** suitable for wet and dry environments and, in particular for: **electricians, craftsmen, carpenters, warehouse workers**, and the **logistics and transport sectors**. Highly **breathable safety shoes** with **air tunnel lining** that ensures the dispersion and absorption of moisture and the **U-Power original insole** in polyurethane compound.
