# MADRID o ESD

0RI21052

## DESCRIPTION

**Safety shoes without laces** with **water repellent** and **breathable** New Safety Dry upper. **White work shoes** with **anti-slip**, **anti-static**, **oil-resistant**, **abrasion-resistant** PU/PU sole and lightweight **Airtoe Composite toe cap** weighing only 50 gr. **Madrid** is an extremely **comfortable** and breathable **safety shoe** thanks to its Wingtex® air tunnel lining. The **WOW2 insole** also ensures **long-lasting well-being and comfort** thanks to its self-modelling properties and the anti-fatigue insert which significantly reduces body stress and improves **stability** and **balance**. **Work shoes for women** and **men**, ideal for various work areas and, in particular, **for the food**, **nursing** and **health industries**.

## UPPER

New Safety Dry, water repellent and breathable

## LINING

Wingtex® breathable air tunnel

## TOECAP

AirToe Composite

## ANTIPERFORATION

Not present

## MIDSOLE

WOW2 anti-fatigue

## SOLE/TREAD

Abrasion resistant, oil resistant, anti-slip, anti-static PU/PU

## ANATOMICAL INSOLE

Natural Confort 11 Mondopoint

## AIRTOE COMPOSITE TOECAP

A versatile solution made from a completely metal-free composite material. Weighing approximately 50 grams, it offers excellent thermal insulation and a lightweight design suitable for prolonged use in a variety of working environments.

## PROTECTION CLASS

S2 FO SR

## EU NORM

EN ISO 20345:2022 S2 FO SR

## SIZES

35-48 (UK: 2-13)

## ESD (ELECTROSTATIC DISCHARGE)

Technology designed to continuously dissipate electrostatic charges accumulated by the human body to the ground. Certified footwear complies with the requirements of the CEI EN 61340 standards for the protection of electronic components, making it suitable for use in EPA (Electrostatic Protected Area) environments during both production and handling of sensitive devices.

## WOW 2

Anatomical footbed composed of two technical elements: an arch support structure made from a dynamic BASF compound with self-moulding properties, designed to evenly distribute body weight, and an anti-fatigue insert made from a special BASF compound. This combination reduces bodily stress caused by prolonged standing, helping to minimize daily fatigue throughout the working day.
