

Model: MARS s ESD

Protection Class: S1PS FO SR

Article: 0RK20046

EU Norm: EN ISO 20345:2022

DESCRIPTION

Lightweight, breathable safety shoes with perforated soft suede upper and **Mesh inserts** for increased breathability, ideal in dry environments and for warmer seasons. **Composite, lightweight toecap and reinforcement tip** polyurethane on front part of foot for increased protection and shoe durability. **Comfortable work shoes** with ultra-breathable **WingTex** air tunnel lining and anti-scuff, non-slip, **antibacterial and highly breathable insole** that ensures dry feet at all times. **Mars** is a **safety footwear** style that is fully **"Metal Free"** suitable for both women and men, ideal for different areas of use, such as **electricians** and **craftsmen, carpenters, warehouse workers, the logistics and haulage, mechanical engineering industry, automotive, and paper mill** sectors. The safety of the foot is guaranteed by the **Save & Flex Plus anti-perforation system** sewn directly into the upper to ensure protection of the entire surface of the sole. **Anti-static safety shoes** with compact PU **non-slip, oil-resistant** and **abrasion-resistant** sole.
