

MERENGUE

GUG00026

DESCRIPTION

U-Power's **Merengue work gloves offer** superior **protection against mechanical and thermal hazards**, making them ideal for works in various fields, including **logistics**, **construction**, **farming**, **service** and **manufacturing**, **fishing** and **automotive** industries. Made with a **15-needle finish**, they ensure an improved sense of touch and **facilitate precision work**. The **Na2 Technology improves the grip**, making the gloves durable and oil-resistant. Designed to ensure softness, elasticity and strength, they offer high performance even at low temperatures. The **stretch Nylon cuff** ensures comfort during prolonged use, while the **touch feature** allows the use of smartphones and tablets without having to remove the gloves. Perfect for wet and dry environments, Merengue gloves combine protection, dexterity and comfort. Available in packs of 12 (GUG00026) and 144 (GUG14426) pieces.
