

MISTRAL s ESD

0RI50086

DESCRIPTION

Lightweight and comfortable work shoes with upper in soft **perforated suede** and mesh inserts. **Safety shoes without laces** with two eyelets at the level of the instep and at the back to make the fit easier. **Greater comfort** thanks to the **anatomical, self-modelling insole** and enriched by an **anti-fatigue insert** that absorbs shocks and improves stability and balance. The WOW2 insole **reduces body stress** by increasing the feeling of well-being and comfort. **Breathable work footwear** with Wingtex® lining with air channels and **anti-static, oil-resistant, anti-slip** and **abrasion-resistant sole**. Ideal for both men and women. **Safety footwear with Airtoe composite toe cap** and **"No Metal" Save & Flex® PLUS anti-perforation** system, ideal for the following sectors: **transport and logistics, gardening and farmers, mechanics and tyre repairers, craftsmen, carpenters, electricians, plumbers, painters, gas station operators, workers, builders.**

UPPER

Soft perforated suede, breathable, with mesh inserts

LINING

Wingtex® breathable air tunnel

TOECAP

AirToe Composite

ANTIPERFORATION

Save & Flex® PLUS

MIDSOLE

WOW2 anti-fatigue

SOLE/TREAD

Abrasion resistant, oil resistant, anti-slip, anti-static PU/PU

ANATOMICAL INSOLE

Natural Confort 11 Mondopoint

AIRTOE COMPOSITE TOECAP

A versatile solution made from a completely metal-free composite material. Weighing approximately 50 grams, it offers excellent thermal insulation and a lightweight design suitable for prolonged use in a variety of working environments.

SAVE & FLEX® PLUS

Save & Flex® PLUS anti-perforation insert. Textile, metal-free protective insert designed to provide superior lightness and flexibility compared to traditional steel plates. Sewn directly onto the upper, it ensures full-foot plantar protection. It offers sole penetration resistance up to 1100 N in compliance with current safety standards.

ESD (ELECTROSTATIC DISCHARGE)

Technology designed to continuously dissipate electrostatic charges accumulated by the human body to the ground. Certified footwear complies with the requirements of the CEI EN 61340 standards for the protection of electronic components, making it suitable for use in EPA (Electrostatic Protected Area) environments during both production and handling of sensitive devices.

WOW 2

Anatomical footbed composed of two technical elements: an arch support structure made from a dynamic BASF compound with self-moulding properties, designed to evenly distribute body weight, and an anti-fatigue insert made from a special BASF compound. This combination reduces bodily stress caused by prolonged standing, helping to minimize daily fatigue throughout the working day.
