

Model: MOKI s ESD

Protection Class: S1 PS FO SR

Article: 0RN20056

EU Norm: EN ISO 20344:2021

DESCRIPTION

Safety shoes made from **innovative materials** to suit everyone's tastes as well as to meet safety and comfort requirements. Moki are safety shoes with **ultra-breathable mesh upper with soft suede microfibre inserts** and **polyurethane reinforcement toe cap**. The **soft white calfskin lining** extends from the toes to the heel wrapping around the foot like a sock and providing excellent comfort and well-being. The **Infinergy® system guarantees an energy return of more than 55%** with each step, increasing comfort and well-being every day. Greater safety and stability thanks to the **non-slip feature**. Moki are safety shoes with the **U-Power Original anatomical insole** in soft, **breathable** and **antibacterial** leather and the **AirToe Aluminium toe cap** for complete protection of the toes and forefoot. On the other hand, the **Save & Flex PLUS no-metal anti-puncture system** ensures the full protection of the entire sole of the foot as it is stitched directly to the upper.
