

MONTANA UK s ESD

ORI11554

DESCRIPTION

Safety shoes ideal for rainy days thanks to the soft, **breathable, water-repellent, pull-up leather** upper. Montana UK is a work shoe with a lightweight Air Toe **composite toe cap** which ensures maximum protection of the toes and front part of the foot. Foot safety is increased by the **Save&Flex® PLUS anti-perforation system** consisting of a totally “**metal-free**” anti-perforation insole which protects the entire sole of the foot because it is **sewn directly onto the upper**. Montana UK is also a very comfortable work shoe that ensures maximum comfort thanks to the **WOW2 anti-fatigue insole**, designed to guaranteed balance and the distribution of shocks at work. The **sole** of this high-top safety shoe is **made of abrasion resistant, oil resistant, non-slip, and anti-static PU/PU**. Lastly, it features **specific protection to insulate** the bottom of the shoe **from the cold**, certified with CI standard protection.

UPPER

Soft, strong, water repellent, pull-up leather

LINING

Wingtex® with breathable air tunnel

TOECAP

AirToe Composite

ANTIPERFORATION

Save & Flex® PLUS

MIDSOLE

WOW2 anti-fatigue

SOLE/TREAD

Abrasion resistant, oil resistant, anti-slip, anti-static PU/PU

ANATOMICAL INSOLE

Natural Confort 11 Mondopoint

AIRTOE COMPOSITE TOECAP

A versatile solution made from a completely metal-free composite material. Weighing approximately 50 grams, it offers excellent thermal insulation and a lightweight design suitable for prolonged use in a variety of working environments.

SAVE & FLEX® PLUS

Save & Flex® PLUS anti-perforation insert. Textile, metal-free protective insert designed to provide superior lightness and flexibility compared to traditional steel plates. Sewn directly onto the upper, it ensures full-foot plantar protection. It offers sole penetration resistance up to 1100 N in compliance with current safety standards.

ESD (ELECTROSTATIC DISCHARGE)

Technology designed to continuously dissipate electrostatic charges accumulated by the human body to the ground. Certified footwear complies with the requirements of the CEI EN 61340 standards for the protection of electronic components, making it suitable for use in EPA (Electrostatic Protected Area) environments during both production and handling of sensitive devices.

WOW 2

Anatomical footbed composed of two technical elements: an arch support structure made from a dynamic BASF compound with self-moulding properties, designed to evenly distribute body weight, and an anti-fatigue insert made from a special BASF compound. This combination reduces bodily stress caused by prolonged standing, helping to minimize daily fatigue throughout the working day.
