NAIROBI s ESD

0RI21096

DESCRIPTION

Low-cut work shoes with upper in **ultra-breathable nylon** and soft suede, side bands and laces in contrasting colour. **Wingtex® lining** with air tunnel and WOW2 **insole** with **anti-fatigue** insert for greater **comfort** and **long-lasting well-being**. The self-modelling insole, in fact, is able to distribute body stress and improve balance and stability. **Safety shoes** with lightweight **Airtoe Composite toe cap** and Save & Flex® PLUS **anti-perforation system**, for **total protection** of the toe and sole **of the foot**. **Safety shoes** ideal for: **craftsmen**, **builders** and **construction sites**, **carpenters**, **electricians**, **plumbers**, **painters**, **process workers**, **gas station operators**, **transport** and **logistics**, **gardeners** and **farmers**, **mechanics** and **tyre repairers**. **Safety footwears for men** and **women** with **anti-slip**, **oil-resistant**, **abrasion-resistant** and **anti-static** soles.

UPPER

Ultra breathable nylon and soft suede

LINING

Wingtex® breathable air tunnel

TOECAP

AirToe Composite

ANTIPERFORATION

Save & Flex® PLUS

MIDSOLE

WOW2 anti-fatigue

SOLE/TREAD

Abrasion resistant, oil resistant, anti-slip, anti-static PU/PU

PROTECTION CLASS

S1PS FO SR

ANATOMICAL INSOLE

Natural Confort 11 Mondopoint

AIRTOE COMPOSITE TOECAP

A versatile solution made from a completely metal-free composite material. Weighing approximately 50 grams, it offers excellent thermal insulation and a lightweight design suitable for prolonged use in a variety of working environments.

EU NORM

EN ISO 20345:2022 SB S1 PS FO SR

SAVE & FLEX® PLUS

Save & Flex® PLUS anti-perforation insert. Textile, metal-free protective insert designed to provide superior lightness and flexibility compared to traditional steel plates. Sewn directly onto the upper, it ensures full-foot plantar protection. It offers sole penetration resistance up to 1100 N in compliance with current safety standards.

SIZES

35-48 (UK: 2-13)

ESD (ELECTROSTATIC DISCHARGE)

Technology designed to continuously dissipate electrostatic charges accumulated by the human body to the ground. Certified footwear complies with the requirements of the CEI EN 61340 standards for the protection of electronic components, making it suitable for use in EPA (Electrostatic Protected Area) environments during both production and handling of sensitive devices.

WOW 2

Anatomical footbed composed of two technical elements: an arch support structure made from a dynamic BASF compound with self-moulding properties, designed to evenly distribute body weight, and an anti-fatigue insert made from a special BASF compound. This combination reduces bodily stress caused by prolonged standing, helping to minimize daily fatigue throughout the working day.
