DESCRIPTION

Black water repellent safety shoes with upper in soft tumbled leather that ensures **special protection of the sole from the cold** (at temp. ≤ 10 °C.). **Anti-slip**, **abrasion-resistant**, **oil-resistant** and **anti-static work shoes**. **Safety footwear** suitable for professionals in the **transport** and **logistics**, **gardening** and **agriculture** sectors, for **mechanics**, **tyre repairers**, **process workers**, **electricians**, **plumbers**, **carpenters**, **painters**, **craftsmen** and **gas station operators**. **Safety shoes for men** and **women** with Airtoe **composite toe cap** and **Save & Flex® PLUS anti-perforation** system for a **100% guarantee of protection** of the front and sole of the foot. **Comfortable and lightweight work shoes** equipped with an **anti-fatigue insert** and **WOW2 self-modelling insole** for greater comfort and a perception of **long-lasting well-being**. Air tunnel inner lining for **high breathability** and **foot health**.

UPPER

Soft tumbled grain leather, water repellent

LINING

Wingtex® breathable air tunnel

TOECAP

AirToe Composite

ANTIPERFORATION

Save & Flex® PLUS

MIDSOLE

WOW2 anti-fatigue

SOLE/TREAD

Abrasion resistant, oil resistant, anti-slip, anti-static PU/PU

PROTECTION CLASS

S3S CI FO SR

ANATOMICAL INSOLE

Natural Confort 11 Mondopoint

AIRTOE COMPOSITE TOECAP

A versatile solution made from a completely metal-free composite material. Weighing approximately 50 grams, it offers excellent thermal insulation and a lightweight design suitable for prolonged use in a variety of working environments.

EU NORM

EN ISO 20345:2022 S3S CI FO SR

SIZES

35-48 (UK: 2-13)

SAVE & FLEX® PLUS

Save & Flex® PLUS anti-perforation insert. Textile, metal-free protective insert designed to provide superior lightness and flexibility compared to traditional steel plates. Sewn directly onto the upper, it ensures full-foot plantar protection. It offers sole penetration resistance up to 1100 N in compliance with current safety standards.

ESD (ELECTROSTATIC DISCHARGE)

Technology designed to continuously dissipate electrostatic charges accumulated by the human body to the ground. Certified footwear complies with the requirements of the CEI EN 61340 standards for the protection of electronic components, making it suitable for use in EPA (Electrostatic Protected Area) environments during both production and handling of sensitive devices.

WOW 2

Anatomical footbed composed of two technical elements: an arch support structure made from a dynamic BASF compound with self-moulding properties, designed to evenly distribute body weight, and an anti-fatigue insert made from a special BASF compound. This combination reduces bodily stress caused by prolonged standing, helping to minimize daily fatigue throughout the working day.
