

Model: NIAGARA UK s

EU Norm: EN ISO 20344:2021

Article: 0RI10324

DESCRIPTION

Low environmental impact winter safety shoes made with recycled materials and materials obtained from renewable sources that uphold the criteria of eco-sustainability and respect for the environment, completely Carbon Neutral (zero CO2 emissions). This high, comfortable and light safety footwear from the Red Industry Green range has a soft, micro-fibre upper containing a high percentage of recycled material. The Save & Flex Plus Green anti-puncture system, completely fabric and "Metal Free", is made with 59% recycled material, as is the Wingtex Green air tunnel lining (66% recycled material). Eco-bio footwear with ultra-light AirToe Composite toe cap (weighing just 50 gr). U-Power Green shoes guarantee a high level of protection and comfort, in respect of the environment and eco-sustainability, whilst maintaining the recognised high level of quality of the U-Power name.

100% of the materials used in the WOW2 Green insole (which supports the foot with an enveloping sensation of prolonged well-being) and is ESD, anti-slip, oil resistant and abrasion resistant sole comes from renewable sources, both in BASF PU. The insole is anti-bacterial, anatomic and anti-static. Eco-sustainable safety footwear suitable for assembly line, industrial, logistics and automotive work.

UPPER

Soft micro-fibre with high percentage of recycled material and breathable inserts

LINING

Wingtex® Green breathable air tunnel containing 66% recycled material

TOECAP

AirToe Composite

ANTIPERFORATION

Save & Flex PLUS® Green, anti-puncture, "no metal" insole containing 59% recycled material

MIDSOLE

WOW2 Green

SOLE/TREAD

PU by BASF 100% made of renewable resource. Compact, abrasion resistant, oil resistant, anti-slip and ESD

ANATOMICAL INSOLE

Natural Confort 11 Mondopoint

SIZES AVAILABLE

35-48 (UK: 2-13)
