

NIKO

WGP204GF

DESCRIPTION

Work glove with excellent fit, dexterity and flexibility. Back made of stretch, breathable and fluorescent material with reflex inserts in correspondence of the fingers to make the gloves more visible in low light conditions. Palm made of durable synthetic leather. Reinforcement between index finger and thumb. Velcro cuff closure. Stretch fabric inserts between the fingers and silicone finish on the fingers to increase the grip. This glove is also touchscreen compatible with the use of smartphones and tablets that allows you to stay connected at work. Lot of 3 pairs.
