

Model: OBERYN ESD

Article: 0RT20114

Protection Class: S3S CI HI HRO FO SR

EU Norm: EN ISO 20345:2022+A1:2024

DESCRIPTION

The Oberyn of the Red Stratos range are low-cut safety shoes with protection class S3S CI HI HRO FO ESD SR, designed to guarantee maximum safety and comfort even in demanding conditions. They offer PUTEK® star high tenacity, water-repellent and breathable uppers, an ultra-lightweight NanoFiber toecap and a metal-free perforation-resistant midsole. The Super Critical Technology sole together with the HRO rubber ensures high grip, heat resistance and protection from the cold, while the breathable lining and U-Power Original footbed offer extended comfort. Ideal for technical, industrial and logistics environments.
