DESCRIPTION

Low-heeled safety shoes with **PUTEK® star** upper and toe protection with abrasion-resistant scuff cap. **Ultra-light work shoes highly resistant to abrasion** and with particular **protection of the sole from the cold**. These **non-slip shoes** with **anti-static**, **oil-resistant** and **abrasion-resistant soles** are fitted with a **tread** made with a particular super-light **new generation** PU compound that considerably reduces the overall weight of the shoe. The **AirToe Aluminium toecap** and the **new ultra-light puncture-resistant textile insole**, ensure protection of toe and sole of the foot while preserving the lightness of the shoe. Well-being and comfort are ensured by the presence of the breathable **U-Power Original insole** in light polyurethane compound, while breathability is increased by the Wingtex® **air tunnel lining** which guarantees air circulation and moisture absorption. **Safety footwear** suitable for: **craftsmen** in general, **electricians**, **carpenters**, **warehouse workers**, and the **transport and logistics sector**.

UPPER

PUTEK® star and abrasion-resistant scuff cap to protect the tip

LINING

Wingtex® with breathable air tunnel

TOECAP

AirToe Aluminium

ANTIPERFORATION

Save & Flex Air

MIDSOLE

U-Power Original

SOLE/TREAD

Abrasion-resistant, oil-resistant, no-slip and anti-static in a new generation PU compound

ANATOMICAL INSOLE

Natural Confort 11 Mondopoint

SAVE & FLEX AIR

Save & Flex Air anti-perforation insert. Ultra-lightweight (extralight) protective insert designed to effectively protect the foot from nails and sharp objects without adding extra weight to the footwear. It provides high safety standards, flexibility, and full-foot plantar coverage, enhancing dynamic comfort during movement.

PROTECTION CLASS

S3S CI FO SR

EU NORM

EN ISO 20345:2022

SIZES

35-48 (UK: 2-13)

PU TEK STAR

A protective fabric featuring a geometric star pattern. It offers durability, flexibility and a PVC-free construction. Certified to ISO 20344:11, it provides air circulation and breathability four times greater than the minimum requirements for S3 safety footwear.

ESD (ELECTROSTATIC DISCHARGE)

Technology designed to continuously dissipate electrostatic charges accumulated by the human body to the ground. Certified footwear complies with the requirements of the CEI EN 61340 standards for the protection of electronic components, making it suitable for use in EPA (Electrostatic Protected Area) environments during both production and handling of sensitive devices.

AIRTOE ALUMINIUM TOE CAP

Made from aluminium to combine lightness with protection, ensuring thermal and dynamic comfort for the foot. Weighing approximately 54 grams, it is designed to maintain high safety standards without adding weight to the footwear.

U-POWER ORIGINAL

Anatomical footbed with arch support structure made from a soft dynamic BASF compound. It features self-moulding properties designed to evenly distribute body weight pressure across the sole of the foot, reducing pressure points and optimizing dynamic comfort.
