

Model: PHIL s

Protection Class: S7S CI HI HRO FO SR

Article: LI10594

DESCRIPTION

Safety work shoes in standard protection S7S CI HI HRO FO SR with upper in soft leather water-repellent Pull-Up. Waterproof winter work shoes designed to ensure maximum safety in particular for professions where isolation from the cold or heat of the bottom of the footwear is necessary but, also the sole's resistance to contact heat. High-cut winter safety shoes with Wingtex lining that ensures maximum breathability thanks to the microcells that absorb moisture. The safety of the toes and the front of the foot is ensured by the CAP light safety toe cap in aluminium, to which is added the safety toe cap in PU. The SAFE System anti-puncture system protects the sole of the foot. Comfort is ensured by the anatomic insole made of soft breathable and antibacterial polyurethane and the LUPOS soft sock liner and elastopan by BASF. The sole of these high-cut work shoes is in PU/Vibram designed to ensure maximum stability and grip even on the roughest terrain and is enhanced by BASF's Infinergy â system that returns up to 55% of the energy with every step. Ideal shoes for work environments such as steel, oil, chemical industry, assembly, cold and humid environments.
