

Model: PIKA

Article: GUG00014

DESCRIPTION

U-Power's Pika **work gloves** offer excellent protection **against mechanical and thermal hazards**, ensuring safety and comfort across a range of activities. Made with a **13-needle finish**, they **ensure a good sense of touch** and are ideal for precision work. The glove's **integrated carbon fibres help to effectively dissipate antistatic electricity** caused by friction between surfaces, making them particularly useful in environments where this property is crucial. The **stretch Nylon cuff** ensures a **comfortable fit**, while the **touch feature** allows the use of smartphones and tablets without having to remove the gloves. **Perfect for use in logistics, construction, service and manufacturing, fishing and automotive** industries, Pika gloves combine protection and comfort, making them the ideal choice for professionals across a range of sectors. Available in packs of 12 and 144 pieces.
