

# RONAN s

ORL10514

## DESCRIPTION

Safety footwear with the sole of the shoe specially insulated against heat and cold. Water repellent work shoe with upper in soft, Pull-up leather and double lace. The model is made even more hard-wearing with the PU-reinforced scuff cap. The sole in PU/Vibram increases grip and traction, whilst the Infinergy® insert ensures that energy is recovered. Anti-static, anti-slip, abrasion resistant and oil resistant sole, particularly suited for use on uneven ground and treacherous surfaces. These high-cut safety shoes guarantee 100% protection to the surface of the foot thanks to the Save & Flex® PLUS, completely "Metal Free", anti-puncture sole and the lightweight aluminium AirToe toe cap. Ronan is a protective shoe with an ultra-breathable Wingtex® air tunnel lining that ensures prolonged comfort. Footwear for work, suitable for outdoor use in wet and cold environments: shoes for construction workers and builders, people working in agriculture, gardening, building works, road works and maintenance, installations, port areas.

### UPPER

Water repellent, Pull-up leather

### LINING

Wingtex® breathable air tunnel

### TOECAP

AirToe Aluminium

### ANTIPERFORATION

Save & Flex® PLUS®, anti-puncture, "no metal" fabric insole

### MIDSOLE

U-Power original

### SOLE/TREAD

PU/VIBRAM and Infinergy®

### ANATOMICAL INSOLE

Natural Confort 11 Mondopoint®

### VIBRAM®

A world leader in the industry, Vibram® develops rubber soles designed to ensure grip, stability, durability and safety. The result of over 80 years of research and innovation, they combine advanced design and exclusive compounds to deliver high performance, comfort and reliability in any environment.

### AIRTOE ALUMINIUM TOE CAP

Made from aluminium to combine lightness with protection, ensuring thermal and dynamic comfort for the foot. Weighing approximately 54 grams, it is designed to maintain high safety standards without adding weight to the footwear.

### SAVE & FLEX® PLUS

Save & Flex® PLUS anti-perforation insert. Textile, metal-free protective insert designed to provide superior lightness and flexibility compared to traditional steel plates. Sewn directly onto the upper, it ensures full-foot plantar protection. It offers sole penetration resistance up to 1100 N in compliance with current safety standards.

### INFINERGY®

Closed-cell expanded polyurethane cushioning insert designed to return energy with every step. Engineered to reduce muscle fatigue, it provides consistent energy return during both walking and prolonged work activities, ensuring high levels of comfort and long-lasting cushioning in all working conditions.

### U-POWER ORIGINAL

Anatomical footbed with arch support structure made from a soft dynamic BASF compound. It features self-moulding properties designed to evenly distribute body weight pressure across the sole of the foot, reducing pressure points and optimizing dynamic comfort.
