DESCRIPTION

Low-cut safety shoes with special **protection of the sole from the cold** (At temp. ≤ 10 °C.), ideal for damp environments and cold climates. **Super light safety footwear** with **water repellent**, innovative, Nubuck-effect microfibre upper in ultra-light latest-generation PU mix which significantly reduces the weight of the footwear while ensuring maximum grip and adherence. **Non-slip**, **anti-abrasion**, **anti-oil** and **antistatic sole**. The all-fabric Save & Flex Air **anti-perforation system** and **AirToe Aluminium toe cap** guarantee protection of the foot while the inner U-Power Original **insole with antibacterial**, **anatomic** and **self-modelling properties**, together with the Wingtex® air tunnel **ultra-breathable lining** ensure healthy feet and **prolonged comfort**. **Safety shoes for electricians**, **carpenters**, **artisans**, **warehouse workers**, **transport & logistics** with sizes from 35 to 48, suitable for both men and women.

PROTECTION CLASS

S3S CI FO SR

EU NORM

EN ISO 20345:2022 S3S CI FO SR

SIZES

35-48 (UK: 2-13)

UPPER

Nubuck-effect, water-repellent microfibre

TOECAP

AirToe Aluminium

MIDSOLE

U-Power Original

ANATOMICAL INSOLE

Natural Confort 11 Mondopoint

LINING

Wingtex® with breathable air tunnel

ANTIPERFORATION

Save & Flex Air

SOLE/TREAD

New generation anti-abrasion, anti-oil, anti-slip and antistatic PU compound

SAVE & FLEX AIR

Save & Flex Air anti-perforation insert. Ultra-lightweight (extralight) protective insert designed to effectively protect the foot from nails and sharp objects without adding extra weight to the footwear. It provides high safety standards, flexibility, and full-foot plantar coverage, enhancing dynamic comfort during movement.

AIRTOE ALUMINIUM TOE CAP

Made from aluminium to combine lightness with protection, ensuring thermal and dynamic comfort for the foot. Weighing approximately 54 grams, it is designed to maintain high safety standards without adding weight to the footwear.

ESD (ELECTROSTATIC DISCHARGE)

Technology designed to continuously dissipate electrostatic charges accumulated by the human body to the ground. Certified footwear complies with the requirements of the CEI EN 61340 standards for the protection of electronic components, making it suitable for use in EPA (Electrostatic Protected Area) environments during both production and handling of sensitive devices.

U-POWER ORIGINAL

Anatomical footbed with arch support structure made from a soft dynamic BASF compound. It features self-moulding properties designed to evenly distribute body weight pressure across the sole of the foot, reducing pressure points and optimizing dynamic comfort.
