

Model: SALT

Article: WST392GJ

DESCRIPTION

Salt work shorts are the ideal choice for anyone looking for a tough yet comfortable garment for summer, without compromising on style or functionality.

Made from a durable **stretch cotton and polyester blend**, these shorts offer maximum freedom of movement and exceptional resistance, even in the most demanding conditions. The raised back yoke ensures an optimal fit and enhanced comfort, especially when bending or kneeling.

The Salt model stands out for its practical and functional design. On the right leg, you'll find a dedicated tool pocket with **ultra-resistant loops** and a **fly-style ruler pocket**, cleverly positioned not to hinder movement.

On the left leg, a multifunctional Velcro pocket and a zipped side pocket help you organize and protect your personal items and work tools efficiently. Additional features include a practical **hammer loop**, a **badge holder ring** (or multipurpose hook), and a central **YKK zip closure**—synonymous with durability and reliability.

Choose Salt shorts to combine durability, comfort, and practicality in a single piece of workwear—perfect for hot summer days.
